SKILLS

Languages: JavaScript, TypeScript, Node.js, HTML/CSS, SASS.

Tools: Angular, React, Next, Express.js, AWS, Firebase, MongoDB, Git/Github, CI/CD, Tailwind, Bootstrap, Agile.

EXPERIENCE

CloudLink

Remote

Full Stack Engineering Intern

Jan 2024 – Jun 2024

- Built, and integrated a gallery feature that empowered users to use predefined images in their posts, enhancing content creation ease and engagement. utilized **by over 50%** of the user base.
- Collaborated with designers and used customized Next.js components and Tailwind CSS classes to enhance website responsiveness and achieve pixel-perfect design, resulting in improved mobile user experience.
- Developed new Express APIs and modified front-end logic and UI to implement partial loading across multiple sections of the website, resulting in a speed improvement of **over 30%**.
- Participated in almost weekly technical discussions that facilitated the exchange of information, resulting in the creation of documents and potential changes to AWS services, microservices architecture, and Node.js API logic, ultimately saving costs while optimizing performance.
- NextJs, ExpressJs, Amazon S3, Dynamoose, Github actions, Jira | [Project Link](#).

AWS and Full-Stack Engineering Trainee

Oct, 2023 - Jan, 2024

- Participated in a comprehensive training program focusing on AWS and ReactJS, building full-stack applications leveraging AWS services in the backend, gaining real-world experience and **earning my AWS certification**.
- Developed and explained the development process of multiple React applications utilizing various AWS services such as IAM, S3, Lambda, Cognito, Amplify, and CodePipeline, along with GitHub Actions for CI/CD, to **over 10 new colleagues** in several meetings, sharing knowledge and gaining leadership experience.
- ReactJs, AWS IAM, EC2, Lambda, Cognito, CI/CD, Git/Github.

PROJECTS

Note It Now

Morocco, Tetouan

Full Stack Engineer

Jun 2020 – July 2020

- Developed a visually appealing task manager app with secure authentication and authorization using Express APIs, session handling, and a responsive design optimized for all devices.
- Used RxJS with Angular components to make API calls to Express.js, while customizing the interface to indicate ongoing processes and prevent redundant actions for a smooth user experience.
- Angular, Typescript, Tailwind, ExpressJs, MongoDB | [Project Link](#) | Project Demo.

COURSES AND CERTIFICATIONS

AWS Certified Cloud Practitioner

Amazon Web Services

[Link](#)

Dec, 2024

- EC2, S3, VPC, CloudFront, ELB & ASG, AWS Databases, Lambda, AWS CAF.

JavaScript Algorithms and Data Structures Masterclass

Udemy

[Link](#)

Nov, 2024

- Big O, Recursion, Searching algorithms, Sorting algorithms, **Build +10 Data Structure**, OOP, **+100 problems**.

Angular 4: Beginner to Pro & The Complete Node.js Course

Code with Mosh

[Link](#) - [Link](#)

Mar, 2023 - Aug, 2023

- Angular, Rxjs, Firebase, Bootstrap, Testing, TTD, OOP | Node.js, NPM, RESTful APIs, Express.js, TTD, MongoDB.

EDUCATION

Specialized Technician Diploma in Computer Networks

Morocco, Tetouan

Institute Specialized in Offshoring Professions

July, 2022

- Network Protocols in depth (HTTP, DNS, etc), Operating Systems Administration (Win, Linux), Cisco Packet Tracer.
